

# Cielo Pro

260x260 cm

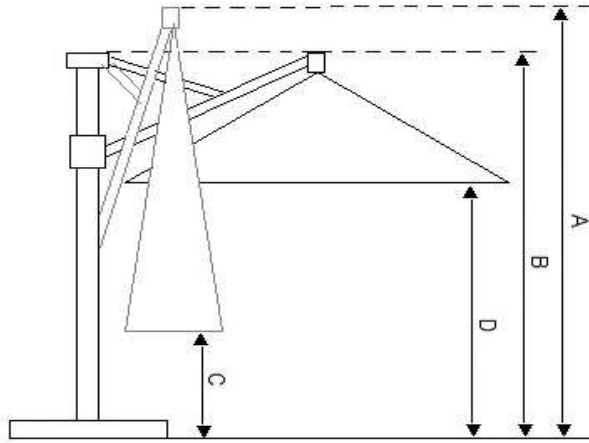

## A TOUGH GUY

The first goal of Cielo Plus is ease. Its special system allows you to open and close the umbrella with incredible ease. The same system ensures that you can easily tilt it by adopting different diagonal positions without having to strain.

Ingenuous twist mechanism. If you put your foot on the pedal the umbrella will rotate 360 ° easily, releasing the pedal locks the umbrella in the desired position. The Cielo Plus offers you great protection against sunlight. Travel literally, chasing the Sun.
